THE

FOUNDRY TRADE JOURNAL

(with which is incorporated THE IRON AND STEEL TRADES JOURNAL).

ESTABLISHED 1902.

INDEX TO VOLUME XLIX.

July to December, 1933.

Head Office:
49, Wellington Street, London, W.C.2.

XUM

Index to Volume XLIX.

SUBJECT INDEX.

A

Allen, Edgar, & Co., Ltd., Works Visit, 206.
Alloy Steels, Novel Quick-Reference Indicator for, 344.
Alloyed Grey Cast Iron, 61, 81, 132.
Alloys in Cast Iron, American Progress in the Use of, 7, 19, 35, 84.
Aluminium and its Alloys, M.B.V., Surface Treatment for, 281.
Aluminium Blast-Furnace Tuyeres, 23
Aluminium Die-Casting Foundries, Heat-Resisting Cast iron in, 330.
Aluminium, Effect upon Cast Iron, 344.
American Progress in the Use of Alloys in Cast Iron, 7, 19, 35, 84.
Annealing Practice with Special Reference to Continuous Plants, Malleable, 89.
Argentine, For the, 190.
Australian Foundry, A Modern, 129, 185.

B

Basic-Bessemer Steelworks, 79.
B.C.I.R.A. Study Course, 200.
Bell-Founder's Memorial, 272.
Bell-Founding in Ireland, 364.
Beryllium on Steel, Influence of, 221, 237, 267.
British Cast Iron Research Association, Annual Meeting and Luncheon, 263.
British Cast Iron Research Association, Annual Report, 245.
British Ironfounders' Association, London Dinner, 339.

C

Carburising Cast Iron and Steel Scrap, 152.
Cast Iron, Applications of Heat-Treated, 314.
Cast Iron, Effect of Aluminium upon, 344.
Cast Iron in Chemical Equipment, 107.
Cast Iron, Production and Properties of Superior, 289.
Cast Iron, Sodium-Carbonate Process for Treating, 191.
Cast Iron, Some Experiments on the Heat-Treatment of Malleable, 355.
Cast Iron Suitable for Nitrogen Hardening Nitricastiron (Centrard), 243, 259.
Cast-Iron Vessel, Special, 207.
Cast Irons, Heat-Resisting, 31, 47.
Castings, Cunard Mammoth, 358.
Castings for Laundry Machinery, Grey Iron, 293, 307.
Castings, Manufacture and Application of Centrifugal, 321.
Castings, Sound Iron, 283.
Castings, Spur Wheel, 209.
Cast Steel, Molybdenum in, 16.
Centrifugal Castings, Manufacture and Application of, 321.
Chemical Equipment, Cast Iron in, 107.
Chill in Grey Cast Iron, Inverse (or Internal), 201.
Chill Rolls, Hardness of, 330.
Chromium in Malleable Iron, 359.
Coke, Sampling and Analysis, 47.
Coking Practice in the South Wales District, 103.
Commercial Moulding Sand Control for the Modern Ironfounder, 351, 369.
Conference in Czecho-Slovakia, International Foundry, 217, 234
Continuous Moulding Unit in a Malleable Foundry, Sand Control, 215.
Continuous Plants, Malleable Annealing Practice, 89.
Co-ordinating Phases of Foundry Activities, 249.
Copper, Outlook for, 91.

Correspondence:—

Blaming the Refractories, 272.
Cast Metal Vital in Welding,
Coke Shatter Indices, 116.
Early Roll Founding, 258, 274.
Foaming Slag Trouble, 320, 350.
Grain Size of Malleable Cast Iron, 274.
Internal Chills, 16
Iron Crucible Pots, 174.
Mechanised Foundries, 230.
Me Fecit 1569, 44, 60, 74, 142.
Moulding Magnesium Castings, 200.
Pig-iron with Higher Manganese Content, 2, 30.
Quantity Production and Steel Castings, 350.
Sesci Patents, 200.
Sheffield University Degree Course, 320.
Standardised Sand Testing, 184.
Steel Castings Association, 142.
Technical Control of Small Foundries, 288, 304
The Wilkinson Brothers, 44.
Visiting Cards, 200, 214.

Crucible Process and Metallurgical Developments, 205.
Cunard Mammoth Castings, 358.
Cupola Practice, Discussion on, 324.
Czecho-Slovakia, International Foundry Conference, 217, 234.
Czecho-Slovakian Foundry Practice, 313.

D

Depreciation and Obsolescence, Methods of Computing, 124.
Die Casting of Iron and Steel, 224.

E

Early Roll-Founding, 251.
Education of Foundry Executives, 297.
Electric-Melting Furnace Developments, 329.
Examinations in Foundry Practice and Science, 93.
Exhibition, Shipping, Engineering and Machinery, 133, 143.

F

Factories and Workshops in 1932, 122.
Falkirk Foundrymen at Shotts Ironworks, 149.
Fettling Shop and Efficiency, 337.
Firth, Thos., & Brown, John, Limited, Scunthorpe Works, 180.
Foundries, Mechanised, 65.
Foundry Handling and Conveying, 279.
Foundry Industry, Present Position and Prospects, 204.
Foundry of the Midland Electric Manufacturing Company, Limited, 341.
Foundry Progress, 1908-33, 265.
Foundry Selling Practice, 374.
Foundry Work, Time Studies in, 75, 96, 109.
Fuel Problems of the Swedish Iron and Steel Industry, 26.
Furnace Arch, "Longenecker" Interlocking, 208.

G

German Foundrymen's Technical Association, Annual Meeting, 5.
Grain Size and Mechanical Properties of Malleable Cast Iron, 262.
Green-Sand Testing, Practical Benefits of, 292.
Green Sands, Report on Routine Methods for Testing, 49, 68, 136, 156.
Grey Cast Iron, Alloyed, 61, 81, 132.
Grey Cast Iron, Inverse (or Internal Chill), 201.
Grey-Iron Castings for Laundry Machinery, 293, 307.
Grey Iron, Strength of, 117.

H

Handling and Conveying, Foundry, 279.
Hardness of Chill Rolls, 330.
Hardness Tester, Herbert Pendulum, 123.
Heat-Resisting Cast Iron in Aluminium Die-Casting Foundries, 330.
Heat-Resisting Cast Irons, 31, 47, 95.
Heat-Treated Cast Iron, Applications of, 314.
Heat-Treatment of Malleable Cast Iron, Some Experiments on, 355.
Herbert Pendulum Hardness Tester, 123.
Heterogeneity of Steel Ingots, 189.
High-Frequency Furnaces and their Service to Industry—1923-1933, 312
Holwell Works of the Stanton Ironworks Company, Limited, New Mechanised Plant, 134.
Hooks for Overhead Cranes, 329.
Hot-Blast Cupolas, 165.
Hot Tears in Steel Castings, Studies on Solidification and Contraction and their Relation to the Formation of, 157, 173, 193.
Hydrogen at High Pressures and Temperatures, the Effect on Various Steels, 165.

I

Institute of British Foundrymen:—

Annual Banquet at Cardiff, 3.
Birmingham, Coventry and West Midlands Branch, Presidential Address, 223.
Brown, Lennox & Company, Limited, I.B.F. Visit to Pontypridd Works
District Officials, 88.
District Presidents.—No. 1 (Mr. John Currie), 88.
District Presidents.—No. 2 (Mr. C. Howell Kain), 102.
District Presidents.—No. 3 (Mr. John E. Mercer), 116.
District Presidents.—No. 4 (Mr. J. D. Carmichael), 128.

TD.5 v.49

District Presidents.— Philip A. Russell), 142
District Presidents.— Arthur Philips), 156.
District Presidents.—No. R. D. Welford), 170.
District Presidents.—No. Mr. W. T. Kitching), 184.
East Midlands Branch, Presidential Address, 204.
Institute Elects New Members, 48.
Lancashire Branch, Annual Picnic, 23.
Lancashire Branch, Presidential Address, 306.
List of Members Attending the Cardiff Conference, 5.
London Branch, Annual Dinner, 353.
London Branch, Presidential Address, 185.
Scottish Branch, Annual Dinner, 373.
Scottish Branch, Presidential Address, 249.
Sheffield Branch, Presidential Address, 225, 248.
West Yorkshire Branch, Presidential Address, 265.
West Yorkshire Branch, Tour of Works of Messrs. Fairbairn, Lawson, Combe, Barbour, Limited, 24.
Institute of Metals, Inaugural Lecture, 190.
Interesting Lighting Development, 282.
International President, The Foundrymen's, 258.
Inverse (or Internal) Chill in Grey Cast Iron, 201.
Iron and Steel Institute, 161.
Iron and Steel Institute Autumn Meeting, 102.
Iron Castings, Sound, 283.

J

Jobbing Foundry, Some Practical Considerations in a Small, 275.
Jolt Moulding Machine, The Stobie Electric, 236.

L

Laundry Machinery, Grey Iron Castings for, 293, 307.

Leaders:—

Among the Soviets, 73.
An Excellent Example, 183.
Are Conferences Too Conventional? 213.
Australian Foundry Practice, 73.
Blaming the Refractories, 199.
Books for Students, 271.
Bouquets for British Steel Castings, 115.
British Cast Iron Research Association, 242.
British Industries, 287.
Carburising Cast Iron, 141.
Cast Failures, 101.
Cast Metal Vital in Welding, 29.
Chemistry and Engineering, 319.
Community of Interests and Individualism, 349.
Corners in Castings, 349.
Cupola Development, 257.
Cylinder Wear—I, 1.
Cylinder Wear—II, 15.
Employers and the Forty-Hour Week—I, 155.
Employers and the Forty-Hour Week—II, 169.
First Steel Castings Report, 229.
Foundries and Politics, 287.
Fuel and Man, 303.
Future of the Country Jobbing Foundries, 29.
High Temperature Materials, 335.
Home-Produced Petrol, 43.
In the News, 303.
Invention of the Cupola, 1.
Legitimate Grouse, 101.
Mechanisation and Effort, 213.
Metals in the Service of Man, 141.
National Ironfounding Employers' Federation, 241.
New Labour Problem, 43.
Petrol from Coal, 87.
Plastics, 127.
Plastics, Their Future, 59.
Prague Conference, 155.
Sand Control, 363.
Scientific Research, 15.
Sea-Water Corrosion—I, 183.
Sea-Water Corrosion—II, 199.
Selecting Candidates for Industry, 335.
Steel Industry and the Foundry, 127.
Technical Books and Technical Reviews, 115.
Technical Control in Small Foundries, 257.
The Institute's Technical Committee, 319.
Theory and Practice, 363.
Trade Revival, 271.
Visiting Cards, 169.
Will there be a Scrap Shortage? 87.
Works Visits, 229.
Lighting Development, Interesting, 282.
"Longenecker" Interlocking Furnace Arch, 208.
Low Prices in the Light Castings Trade, 223.

M

Machinable Cast-Iron Welds, How to Make, 83.
Malleable Annealing Practice with Special Reference to Continuous Plants, 89.
Malleable Cast Iron, Some Experiments on the Heat-Treatment of, 355.
Malleable Foundry, Sand Control on a Continuous Moulding Unit in a, 215.
Malleable Iron, Chromium in, 359.
Manufacture and Application of Centrifugal Castings, 321.
Markham & Company, Limited, Works of, 178.
M.B.V. Surface Treatment for Aluminium and its Alloys, 281.
Mechanical Properties of Steel Cast from the Electric Furnace, 120.
Mechanised Foundry of the Sinclair Iron Company, Limited, New, 305.
Mechanisation and the Unemployment Problem, 225, 248.
Mechanised Foundries, 65.
Metallographic Grinding, 344.
Merger of Dorman Long and South Durham Companies, 25.
Metallurgical Developments, Crucible Process and, 205.
Metallurgical Plant, Twenty-Five Years' Progress in, 190.
Midland Electric Manufacturing Company, Limited, The Foundry of, 341.
Molybdenum in Cast Steel, 16.

N

National Physical Laboratory, Annual Inspection, 11.
New Mechanised Foundry of the Sinclair Iron Company, Limited, 305.
Nickel Prospects, 289.
Nitricastiron, 368.
Nitricastiron (Centrard), Cast Iron Suitable for Nitrogen Hardening, 243, 259.
Nitrogen-Hardened Cast Iron, Resistance to Wear, 163.
North British Steel Foundry, Limited, Visit to Works, 45.

O

Oil-Fired Rotary Furnace in England, Present Position, 231.
Open-Hearth Furnaces, Insulation of, 120.
Osborn & Company, Limited, Samuel, Works of, 147.

P

Park Gate Iron & Steel Company, Limited, Works of the, 187
Pearlite, Formation of, 327.
Pig-Irons, The Properties of, 53.
Practical Considerations in a Small Jobbing Foundry, Some, 275.
Prague Conference, 171.
Precipitation-Hardening of Copper Steels, 108.
Production and Properties of Superior Cast Iron, 289.
"Pyroptic" Inspection Window, 192.

Q

Quenching of Steel Cylinders, 314.

R

"Rapidor" Gate Saw, 172.
Refractories, The Handling of, 67.
Refractory, New Super, 17, 38.
Rotary Furnace in England, Present Position of the Oil-Fired, 231.
Runners and Risers, 151.

S

Sand Control for the Modern Ironfounder, Commercial Moulding, 351, 369.
Sand Control on a Continuous Moulding Unit in a Malleable Foundry, 215.
Sand-Preparing Plant at the Openshaw Works of Messrs. Joseph Stubbs, Limited, 340.
Sands, Properties and Testing of, 365.
Sand Testing in the Foundry, 38.
Sands, Report on Routine Methods for Testing Green, 49, 68, 136, 156.
Scrap Shortage, Coming, 11.
Search for New Markets, 306.
Selling Practice, Foundry, 6, 92, 121, 150, 177.
Shipping, Engineering and Machinery Exhibition, 133, 143.
Sinclair Iron Company, Limited, New Mechanised Foundry of the, 305.
Slag from Iron and Steel, Extraction of, 267.
Small Foundries, Technical Control of, 273.
Sodium-Carbonate Process for Treating Cast Iron, 191.
Solidification and Contraction and their Relation to the Formation of Hot Tears in Steel Castings, 157, 173, 193.
Sound Iron Castings, 283
Special Cast-Iron Vessel, 207.
Spur Wheel Castings, 209.
Stanton Ironworks Company, Limited, New Mechanised Plant at the Holwell Works, 134.
Steel Cast from the Electric Furnace, Mechanical Properties of, 120.
Steel Castings Report, 299, 309.
Steel Castings, Studies on Solidification and Contraction and Their Relation to the Formation of Hot Tears in, 157, 173, 193.
Steel Cylinders, Quenching of, 314.
Steel Furnace, Some Factors Leading to Greater Production, 175.
Steel, Influence of Beryllium on, 221, 237, 267.
Steel Ingots, Heterogeneity of, 189.
Steels, Effect of Hydrogen at High Pressures and Temperatures on, 165.
Stobie Electric Jolt Moulding Machine, 236.
Strength of Grey Iron, 117.
Stubbs, Joseph, Limited, Sand-Preparing Plant at the Openshaw Works of, 340.
Sulphur in the Cupola, 328.
Superheating Cast Iron, 116.
Swedish Iron and Steel Industry, Fuel Problems of, 26.

T

Technical Control of Small Foundries, 273.
Testing Green Sands, Report on Routine Methods for, 49, 68, 136, 156.
Time Studies in Foundry Work, 75, 96, 109.
Tin Outlook, 123.
Tin Position, 336.
Tuyeres, Aluminium Blast-Furnace, 23.

W

Ward, T. W., Limited, Albion Works, 179.
Wear of High-Duty and Alloy Cast Iron, 238.
Wear of Nitrogen-Hardened Cast Iron, Resistance to, 163.
Welds, How to Make Machinable Cast-Iron, 83.
Wheelabrator, 123.
Williams, John, & Sons (Cardiff), Limited, I.B.F Visit to Works, 16
